

Pam Lockyer

I am a new governor for Molescroft Primary school but I have been connected to the school for 18 years now . My 2 adopted children now 26 yrs and 24 yrs attended the school. This transition from their previous school was made so easy by all the great staff and I very pleased to be able to give back my time as governor. I can honestly say both our children enjoyed everyday at Molescroft school and have fond memories of all the amazing fun times they had.

My working background is in the most part in the Aerospace industry at BAe Systems as a technical buyer for 20 years . After which I left to live in America with my husband for a couple of years whilst he was working for Boeing. On returning to England I started working for the East Riding Council in the finance dept . I am now retired but working harder then ever in the physical sense , gardening. Gardening and growing is a real passion of mine.

I have several voluntary positions, one being as a Molescroft Parish Councillor.

My many interests include travelling in our camper van with our side kick , Daisy our dog.

My subjects of responsibility are Geography History and gifted and talented . I look forward to the years ahead as governor and how I can help with the continued success of the school .
