

Rebecca Chapman

My name is Becky Chapman and you may recognise me as I was the Chair of the Friends of Molescroft School for five years, whilst my daughter was at Molescroft Primary School. I joined the FOMS as I wanted to give something back to a school that was giving my daughter a high standard of education as well as amazing experiences, for example we love international evening, so we were eager to go to Canada this year! When my daughter moved to Secondary School, I jumped at the opportunity to become a school governor.

I relish the new challenge and although I am on a steep learning curve, I am quickly learning what happens 'behind the scenes' of an outstanding school and can see that everything is done at Molescroft with the child's best interests at the centre of any decision or activity. I have an investigative mind and am willing to ask questions which I sense will come in handy as a Governor.

On a personal note, I have lived in Molescroft the majority of my life and I am testament to the saying 'once a mole, always a mole' as I also went to Molescroft Primary School. The building is nothing like I remember but I do have fond memories of playing on the apparatus that used to be in the hall and my residential to Cober Hill definitely wasn't in the same league as my daughters residential to Derbyshire.

In my spare time I enjoy running (I'm a founder member of the Marathon Moles - a group of parents and teachers who entered an annual challenging running event to raise sponsorship for the school) and I enjoy travelling, walking our family dog and socialising with my friends and family (usually over a glass of wine - or two!).
